Carson Valley's First Full Scale Composting Operation

## Planning a Zero Waste Event? Let us Help!

As part of our commitment to recycling and bringing compostable waste full circle, Full Circle Compost is more than happy to help you with your zero waste event. Our experience over the last 10 years has shown us that regardless of how well organized an event is run we still seem to get 20-30% uncompostable materials commingled with compostable materials. This situation has created a significant labor cost increase to inspect all materials coming from zero waste events.

By signing below, you acknowledge this agreement, our rates, and promise to make sure only compostable material is brought to our site. In the event of contamination, an additional fee can be applied for contaminated loads. Any questions regarding acceptable material, please ask a Full Circle Compost representative.

Full Circle Compost has a minimum zero waste recycling fee of \$100.00 per event or \$50.00 per cubic yard, whichever is greater. A cubic yard is equivalent to (6) 33 gallon garbage bags. Rate does not include transportation from event to Full Circle's composting site in Carson City, NV.

Please supply us with the following information regarding your event:

- Date(s) of event: \_\_\_\_\_
- Name of organization putting on the event: \_\_\_\_\_
- Event Coordinator: \_\_\_\_\_
- Event Coordinator's cell phone # during event: \_\_\_\_\_
- Location of event: \_\_\_\_\_
- Estimate number of attendees at the event: \_\_\_\_\_
- Who will be bringing the compostables to Full Circle Compost, or will you need Full Circle Compost to haul them for you? Please note that there will be a charge for this service:  
\_\_\_\_\_
- Non Profit Tax ID Number, if applicable: \_\_\_\_\_
- Billing address and phone # for company responsible for recycling fee: \_\_\_\_\_
